POC	Jeffrey “Patch” Adams, Managing Member · info@tmsofast.com · (719) 407-4540

CORE COMPETENCIES

- Tactical medicine for non-clinical responders — TECC / Stop-the-Bleed, 18D field reference (SOF Tac-Med iOS live; Pocket Doc ebook live).
- Combat Marksmanship — structured stages (Run & Gun, \$4.99, App Store + Google Play).
- Functional readiness — FM 7-22 style programming (Groundwork, free on both stores).
- Integrated week — Medicine · Survival · Driving · Strength · Protection.

THE DEPARTMENT OFFER

- 1-day medical pilot — \$2,500 / 12 students at the agency site.
- 5-day Pocket Coach Week — \$20,000 / up to 16. Books and live app seats included.
- CSOC / POST-grant catalog instruction when slotted (not currently on the catalog).

IN SCOPE / OUT OF SCOPE

- IN: LE, SWAT/ERT, fire/EMS, academy in-service, federal civilian when the SOW fits.
- OUT: other SOF/SF units as students. YouTube Diploma is a gift, not training. Tac-Med Android is not live.

DIFFERENTIATORS

- Founder is a retired Special Forces Team Sergeant / Troop SGM / 18D based in Florissant (Teller County).
- Colorado POST does not endorse vendors; the agency chief accepts Rule 28 credit. That is the legal fact, not a dodge.
- Takeaways already in public stores — the tools stay after the instructor leaves.
